

Hominids Matching Game

Copyright, ©Chillax Science, 2020

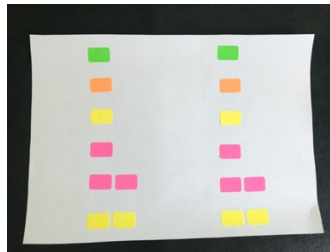

This simple matching cards are to be used only by the person that purchased them and may not distributed, shared electronically or physically without the permission of the author. If you like these cards and want others to benefit from them, please direct them to chillaxscience.com

How to use the material:

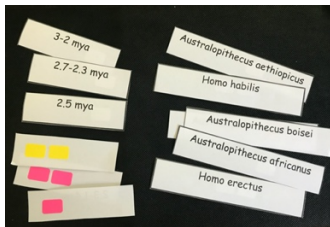

1. Print the material on copy paper or cardstock.

2. Create a control method in order to make this game independent work. You may print an additional copy and include with the material or use a color-coded system in back. Simply match the years and the species name using colored stickers.

3. Then, cut and laminate if desired.

4. Set up for usage.

6 mya	Orrorin tugenensis
4.4 mya	Ardipithecus ramidus
4.2-3.9 mya	Australopithecus anamensis
3.6-2.9 mya	Australopithecus afarensis
3.5-3.3 mya	Kenvanthropus platyops
3-2 mya	Australopithecus africanus

2.7-2.3 mya	<i>Australopithecus aethiopicus</i>
2.5 mya	<i>Australopithecus garhi</i>
2.3-1.4 mya	<i>Australopithecus boisei</i>
2.3-1.6 mya	<i>Homo habilis</i>
2.8-0.3 mya	<i>Homo erectus</i>
1.8- 1.5 mya	<i>Australopithecus robustus</i>

600,000-100,000 ya	Homo heidelbergensis
250,000-30,000 ya	Homo neanderthalensis
100,000 ya	Homo sapiens
